

Fermentation and storage tank BD

The fermentation and storage tank BD is completely made of AISI 304. The tank's resistant walls, its excellent finishing and stability are typical of Speidel's characteristic quality.

The useful top opening simplifies the cleaning and the flat tank bottom allows the tank to be put on pedestals or base frames.

APPLICATION RANGE (PRESSURELESS)

- Fermentation
- Storage

Ideal for

- Beer
- Spirits
- Fermented beverages

Storage rack for more convenient handling can be found in the accessories on page 156
