

## Fermentation and storage tank BD

The fermentation and storage tank BD is completely made of AISI304. The tank's resistant walls, its excellent finishing and stability are typical of Speidel's characteristic quality.

The useful top opening simplifies the cleaning and the flat tank bottom allows the tank to be put on pedestals or base frames.

### APPLICATION RANGE (PRESSURELESS)

- Storage
- Maturation

#### Ideal for

- Spirits
- Beverages
- Plant construction
- Industry

Storage rack for more convenient handling can be found in the accessories on page 184
