

Declaration of suitability

of articles for daily use which come in contact with food stuff

We hereby declare that the

stainless steel containers

supplied by us, including the components intended to come into contact with food under the conditions of intended use, comply with the requirements of Regulation (EC) No. 1935/2004 and Regulation (EC) No. 2023/2006 when used as intended.

Plastic parts intended to come into contact with food additionally comply, where applicable, with the requirements of Regulation (EU) No. 10/2011, as amended.

Product component	Material group	Basis of assessment
Container body, metal parts intended to come into contact with food	Stainless steel	Regulation (EC) No. 1935/2004 Regulation (EC) No. 2023/2006
Plastic screw fittings, plastic components	Plastic	Regulation (EC) No. 1935/2004 Regulation (EC) No. 2023/2006 Regulation (EU) No. 10/2011
Silicone seals	Silicone	Regulation (EC) No. 1935/2004 Regulation (EC) No. 2023/2006 applicable BfR Recommendations
Seals made of rubber/elastomer	Elastomer/rubber	Regulation (EC) No. 1935/2004 Regulation (EC) No. 2023/2006 applicable BfR Recommendations

In particular, compliance is ensured with the provisions relating to:

- health safety and organoleptic properties,
- labelling, and
- traceability.

Specification of the intended use:

Type(s) of food intended to come into contact with the material:

- alcoholic beverages such as must, wine and beer,
- fruit juices,
- water.

Suitable for food contact at temperatures from 5 °C to 40 °C. In this respect, we refer to the respective enclosed or provided technical documentation or operating instructions.

This confirmation applies to the products supplied by us as described. The products comply with the requirements of food contact materials legislation, provided that the specified food contact conditions are observed.

For any food contact applications beyond those specified, the user must verify the suitability of the products themselves.
